Identificateur(s) de sujet: *Index analytique

Ce dépouillement d'articles de périodiques spécialisés a pour but de faciliter aux étudiants et aux chercheurs en éducation comparée la consultation des trois principaux périodiques consacrés à cette discipline: ##Comparative education##, ##Comparative education review## et ##International review of education##.

Des trois revues dépouillées, deux présentent leurs articles en anglais. La troisième, trilingue, présente ses articles en anglais, en français ou en allemand. Les trois revues ont une envergure internationale. L'indexation couvre l'ensemble des numéros publiés jusqu'à 1968 inclusivement soit, pour le premier périodique, les quatre premiers volumes (1964-1968); pour le second, les douze premiers volumes (1957-1968); pour le troisième, les quatorze premiers volumes (1955-1968).

Purement signalétique, l'index répertorie les articles selon le plan suivant: Articles principaux - Congrès - Notes biographiques - Analyses bibliographiques - Films éducatifs - Bibliographies. Dans la première section, de beaucoup la plus importante et la plus considérable, les articles sont signalés sous des descripteurs établis au nom de l'auteur, aux sujets traités et aux noms des pays concernés, le tout en une seule séquence alphabétique. Un jeu de renvois facilite le repérage.

Chaque référence donne le titre de la revue, le volume puis les pages de l'article. Pour les trois premiers volumes de CER, après le volume on donne le numéro.

Each reference includes the name of the periodical, the volume number, and the first and last pages. For the first three volumes of CER, the volume number is followed by the issue number.

Je remercie Mlle Chantal Châtelain qui, comme secrétaire, a collaboré à la rédaction, à la classification et à la transcription de plus de 5,000 fiches pour constituer cet index.

ARTICLES PRINCIPAUX - PRINCIPAL ARTICLES

Pour chaque article on trouve une référence au nom de l'auteur, aux sujets traités et aux noms des pays étudiés. Au nom de l'auteur on donne ses prénoms, les sous-titres et, s'il s'agit d'un article en allemand, la traduction française du titre donnée par la Revue Internationale de Pédagogie.

Each article is classified by author, subject matter and names of the countries concerned. Authors are listed last name first. This is followed by the title of the article, the sub-title, and, if it is written in German, a French translation of the title, when given by the International Review of Education.

Les références aux sujets et aux pays se trouvent soit au terme français soit au terme anglais.

Subject matter and country entries are listed in either French or English.

Le jeu des renvois s'est dégagé empiriquement du vocabulaire employé dans les revues. Son agencement prévoit des éditions ultérieures plus importantes.

The terminology used in cross references has been empirically derived from the terms actually used in the periodicals, and is meant to satisfy the eventual needs of later and larger editions.
